Vcom (Slab/Prefab) Quartz Vietnam Factory

INTRODUCTION

Accompanying the development of the Vietnam economy and global economy, we, Vicom Quartz Company, have grasped the market demand for quartz products so we have invested in the production of high-quality quartz stone panels.

VICOMQUARTZ factory is located in the center of My Duc district, Hanoi City, Vietnam.

Equipped with a modern and completely automated production line, VICOMQUARTZ is one of a few companies that have been applying advanced technics in Quartz production.

VICOM-QUARTZ confidently conquers domestic and international markets with our outstanding quality and designs.

OUTSTANDING FACTORS

Naturally Diversified colors, trend matching and suitable for different home designs.

Quartz slabs are made of 90% natural quartz gritz which is the hardest element in nature, so the engineered quartz is durable, anti-scratch, heat shock resistance, and challenge to chemicals, acids.

ALL VICOM QUARTZ products are certified by NSF and Green Guard. It is verified to its safe use in food contact and processing.

Quartz surface is non poros, and easy to clean or to disinfect by water or anti-bateria solvent.
